

Custom Metal Hand Stamps

Pryor Speciality Hand Stamps are a simple form of bespoke impact marking often used to mark jewellery, gas bottles and diving bottles. Clear and permanent marks can be made into metal, plastic, leather, wood and other materials by simply striking the punch with a hammer.

- Custom designed hand stamps
- Ideal for marking jewellery, gas bottles and diving bottles, or for other certification purposes
- Portable and flexible
- Mark metal, plastic, leather, wood, rubber and other materials.

Overview

Speciality Hand Stamps create a bespoke indent onto many materials by simply hitting the stamp with a hammer. They are portable, lightweight and easy to use.

Like Pryor Premium Punches, Pryor's Speciality Hand Stamps are hardened and tempered to precise limits, ensuring a long life and maximum safety. Manufactured from quality controlled chromium tool steel, they are suitable for marking upto 37 Rockwell 'C' and so can be used for various applications on various materials, including metal, plastic, leather and wood.

The inscription on Speciality Hand Stamps is custom designed to meet your specific requirements, with artwork and design being fully supplied by Pryor's in house design team. The design can include single characters, multiple characters or even symbols and shapes. This makes them ideal for marking certification standards.

- Simple to use
- Portable and lightweight
- Inhouse design team provide artwork so you don't have to
- Extremely durable, long product life
- Mark on a variety of materials, very flexible

Our Solutions

- Traceability Software & Data Capture
- Automated Part Marking
- Aerospace Marking Standards
- Automotive VIN Marking
- Hand Tools for Marking & Identification
- Serial Number Marking
- Logo Marking Solutions
- Production Data Monitoring
